One day, *Forrest Gump* decided to go for a little run, it resulted in a journey that took him across the United States 4 times and lasted for 3 years, 2 months, 14 days & 16 hours. Along the way, many people decided to follow. Is your team running with a *purpose*? Are your team members following *inspired* and *passionately*? Do they really *believe* in the journey? If the answer is anything less than a resounding YES, then this seminar is for you.

This program can be delivered as a Seminar, Workshop or Breakout session. It focuses on the *basics* which are the foundation of excellent teamwork. The basics include: a clear purpose and the effective communication of that purpose; the roles and the requirements of each team member for team success. While *Forrest* inspired others by his sense of purpose and commitment, this program is designed to eliminate guesswork within the team. It's designed as a fun experience with real life tips, tools and solutions to clarify the team's purpose and gain commitment to goals. It stresses authentic, genuine communication as the catalyst to achieve team goals. It also looks at many of the common blocks to effective communication and offers solutions to transform old style communication into *genuine* and *authentic* communication.

## Testimonials

"When faced with the challenge of introducing the corporate goals and new strategic direction for our company of 300 employees at the annual meeting, we were so happy we hired Steve Weber *as Forrest Gump*. Not only was his presentation entertaining, but he did it in a way that was extremely effective. Most importantly, we used Steve's talent to get our message across, and it is a meeting to this day that employees refer back to when we discuss our corporate objectives.

"I would highly recommend Steve for any organization that has an important idea or message to communicate, in a way that will always be remembered."
